## SKILLS

- **Langages:** Java, HTML, CSS, LESS, JavaScript, PHP
- **Java:** Java SE, Java EE, JavaFX
- **Java EE:** CDI, EJB, JPA, JSF, JAX-RS, DeltaSpike, Play! Framework
- **JSF:** Mojarra, MyFaces, Facelets, RichFaces (committer), Primefaces
- **Servers:** Apache, Tomcat, TomEE, JBoss AS, GlassFish, Websphere
- **Databases:** PostgreSQL, MySQL, Oracle, HSQLDB
- **Tools:** Eclipse, IntelliJ IDEA, Maven, Ant, Gradle, Git, SVN, Dimension, Jenkins, Hudson, Sonar, UML
- **Operating Systems:** Linux (Fedora, Debian, Ubuntu), Windows

## STUDIES

**End 2009 :** **Ecole Polytechnique de Montréal** (Montreal, Canada), exchange program during one semester.

**2007/2010 :** **ENSEEIHT** (Ecole Nationale Supérieure d'Electronique, Electrotechnique, Informatique, Hydraulique et Télécommunications, Toulouse, France), engineer degree in **Mathematics and Computer Science**.

**2004/2007 :** **Lycée Pierre de Fermat** (Toulouse, France), two-years highly selective classes to prepare for competitive exams to « Grandes Ecoles ».

**2004 :** Scientific « Baccalauréat », with distinction.

## OTHER

**Langs:** Fench: native language  
English: professional level (TOEIC : 910 / 990)  
Spanish: school level  
Chinese: school level

## EXPERIENCE

- **April 2012 - Now : RichFaces (open-source)**

RichFaces is one of the most famous JSF libraries right now. After using it in several projects, I'm contributing to it, especially around « RichFaces Bootstrap » which aims to create brand new JSF components using RichFaces CDK, Bootstrap and jQuery UI. It will be the core of RichFaces 5, the next major version of the library.

Technologies : JSF, Java, HTML, CSS, LESS, JavaScript.

- **June – July 2012 (2 months) : Mipagar (professionnal)**

Through « Startup Bootcamp » program which aims to help startups beginning their lives, I joined Mipagar team to help them finishing their user interface based on JSF and RichFaces and their RESTful API using Java EE 6 new features.

Technologies : Java, Java EE 6, CDI, EJB, JPA, JAX-RS, JSF.

- **September 2010 – June 2012 (2 years) : CELAD (professionnal)**

Working at CELAD, an IT firm, my first real job was to develop and maintain Java EE applications for Natixis, a french bank, using an internal framework based on Spring, Seam 2 and JSF.

Technologies : Java, Java EE, Seam 2, Spring, JPA, JSF, GWT.

- **2009 – 2011 (2 years) : Self-employed (professionnal)**

At the same time I was studying or working, I was also self-employed in order to realize e-commerce projects during my free time, using PHP or Java EE.

Technologies : Java, Java EE, HTML, PHP.

For a more complete list of all my projects, see :
