SKILLS

- **Langages:** Java, HTML5, CSS3, LESS, JavaScript, PHP
- **Java:** Java SE, Java EE 6, JavaFX 2
- **Java EE:** CDI, EJB, JPA, JSF, JAX-RS, DeltaSpike, Play! Framework
- **JSF:** Mojarra, MyFaces, Facelets, RichFaces (committer), Primefaces
- **Servers:** Apache, Tomcat, TomEE, JBoss AS, GlassFish, Websphere
- **Databases:** PostgreSQL, MySQL, Oracle, HSQLDB
- **Tools:** Eclipse, IntelliJ IDEA, Maven, Ant, Gradle, Git, SVN, Dimension, Jenkins, Hudson, Sonar, UML
- **Operating Systems:** Linux (Fedora, Debian, Ubuntu), Windows

STUDIES

2007/2010: **ENSEEIHT** (Toulouse, France), engineer degree in **Mathematics** and **Computer Science**.

End 2009: **Ecole Polytechnique de Montréal** (Montreal, Canada), exchange program during one semester.

LANGS

French: native language

English: professionnall level (TOEIC : 910 / 990)

OPEN-SOURCE

- **JBoss RichFaces** : after having initiated the « RichFaces Bootstrap » sandbox project which aims to build new JSF components in top of the Bootstrap framework but also jQuery and its plugins, I've developed several components and some brand new concepts (using LESS, semantic components, ...) together with the RichFaces team. The « RichFaces Bootstrap » project will be fully integrated in RichFaces 5, the next major version of RichFaces.
- **Agorava** : committer around the project's website and the demo application named Socializer.
- **JBoss Arquillian** : translator of user guides.
- **Speaker** : conference at Toulouse JUG about Bootstrap and Awestruct.

EXPERIENCE

- **Mipagar: June – July 2012 (2 months)**

Through « Startup Bootcamp » program which aims to help startups beginning their lives, I joined Mipagar team to help them finishing their user interface based on JSF and RichFaces and their RESTful API using Java EE 6 new features. For the user interface, « RichFaces Bootstrap » has been used with really good feedbacks.

Technologies : Java, Java EE 6, CDI, EJB, JPA, JAX-RS, JSF.

- **CELAD: September 2010 – June 2012 (2 years)**

Working at CELAD, an IT firm, my first real job was to develop and maintain Java EE applications for Natixis, a french bank, using an internal framework based on Spring, Seam 2 and JSF.

Also including a project for Banque Privée 1818, a Natixis' subsidiary, in order to develop a web application to manage client's bank accounts with a GWT user interface.

Technologies : Java, Java EE 5, Seam 2, Spring, JPA, JSF, GWT.

- **Self-employed: 2009 – 2011 (2 years)**

At the same time I was studying or working, I was also self-employed in order to realize e-commerce projects during my free time, using PHP or Java EE.

Technologies : Java, Java EE, HTML, PHP.

For a more complete list of all my projects, see :
