SKILLS

- **Langages:** Java, HTML, CSS, LESS, JavaScript, PHP
- **Java:** Java SE, Java EE, JavaFX
- **Java EE:** CDI, EJB, JPA, JSF, JAX-RS, DeltaSpike, Play! Framework
- **JSF:** Mojarra, MyFaces, Facelets, RichFaces (committer), Primefaces
- **Servers:** Apache, Tomcat, TomEE, JBoss AS, GlassFish, Websphere
- **Databases:** PostgreSQL, MySQL, Oracle, HSQLDB
- **Tools:** Eclipse, IntelliJ IDEA, Maven, Ant, Gradle, Git, SVN, Dimension, Jenkins, Hudson, Sonar, UML
- **Operating Systems:** Linux (Fedora, Debian, Ubuntu), Windows

STUDIES

Fin 2009 : **Ecole Polytechnique de Montréal** (Montreal, Canada), exchange program during one semester.

2007/2010 : **ENSEEIHT** (Ecole Nationale Supérieure d'Electronique, Electrotechnique, Informatique, Hydraulique et Télécommunications, Toulouse, France), engineer degree in **Mathematics and Computer Science**.

2004/2007 : **Lycée Pierre de Fermat** (Toulouse, France), two-years highly selective classes to prepare for competitive exams to « Grandes Ecoles ».

2004 : Scientific « Baccalauréat », with distinction.

OTHER

Langs: Fench: native language
English: professional level (TOEIC : 910 / 990)
Spanish: school level
Chinese: school level

EXPERIENCE

- **April 2012 - Now : RichFaces (open-source)**

RichFaces is one of the most famous JSF librairies right now. After using it in several projects, I'm contributing to it, especially around « RichFaces Bootstrap » which goal is to create brand new JSF components using RichFaces CDK and build in top of Bootstrap from Twitter and jQuery UI.

Technologies : JSF, Java, HTML, CSS, JavaScript.

- **June – July 2012 (2 months) : Mipagar (professionnal)**

Through Startup Bootcamp program which goal is to help startups beginning their lives, I joined Mipagar team to help them finishing their user interface based on JSF and RichFaces and their RESTful API using Java EE 6 new features.

Technologies : Java, Java EE 6, CDI, EJB, JPA, JAX-RS, JSF.

- **September 2010 – June 2012 (2 years) : CELAD (professionnal)**

Working at CELAD, an IT firm, my first real job was to develop and maintain Java EE applications for Natixis, a french bank.

Technologies : Java, Java EE, Seam 2, Spring, JPA, JSF, GWT.

- **2009 – 2011 (2 years) : Self-employed (professionnal)**

At the same time I was studying or working, I was also self-employed in order to realize e-commerce projects during my free time, using PHP or Java EE.

Technologies : Java, Java EE, HTML, PHP.

For a more complete list of all my projects, see :
